

Celebrant Mentoring

Hello new or soon-to-be celebrant!

I remember the feeling: I finished my celebrant course, I had my first wedding looming, but I felt absolutely overwhelmed with the process ahead. Where to start? How to conduct the meetings? What will I need for my clients? How do I run a rehearsal? How do I know if they are ACTUALLY MARRIED NOW?!

So let me help you in the process. Choose from one of two options below.

Just A Little Help - \$90 per hour (1 hr minimum)

Book me in for a one-on-one meeting. Meetings can be via zoom, but they'll be even better in person (in the Moorabbin area) at a local cafe or wine bar. We'll bring our laptops and certificates and look real cute and business-like.

In the meeting, we can cover whatever you like. Here's a few examples:

- Checking your paperwork for your first wedding.
- How to use the online BDM RIO system to register all of your weddings electronically.
- Exactly how I run my process, from beginning to end.
- The choreography of a wedding ceremony (ring exchanges, microphone techniques, etc).
- Putting together a ceremony script that is personal, fun and romantic.
- Streamlining your process, so your fee is properly covering your time.

In our meeting, I can walk you through anything you need, answer your questions, and show you my process. However, if you want access to my resources, or ongoing support and advice, then check out the Celebrant Mama package (you can choose to upgrade after our first meeting if you like).

OR...

The Celebrant Mama package - \$300

Let me be your little ol' Mama, and hold your hand until you are up and running. We can meet face-to-face for up to three meetings, but also I will be here for phone calls, messages, emails, checking your paperwork, suggesting ideas... whatever you need. If you'd like some of those meetings to include your clients, I'm happy to watch you conduct the meeting and just be there to co-pilot. I'll back you up through the process, from the Notice of Intended Marriage to submitting the documents to BDM.

Includes:

- An initial Zoom chat to discuss where you're at, and plan our time together.
- Up to three face-to-face meetings, however you'd like to spend them (can include your clients if you like). I can even attend the wedding rehearsal (depending on calendar and travel fees) to make sure you're feeling entirely confident for the big day.
- Phone calls, emails, messages, and around-the-clock support for whenever you have a question about your wedding business.
- Access to all of the resources I use for my process and my clients: script samples, vow templates, questionnaires, templates for printing names on the commemorative certificate, and much more.
- Help setting up your process, from initial meetings to rehearsals to follow-up emails for your clients.
- Technology advice, such as useful apps, PA systems, client files and websites.
- And once your celebrant business is established, I can add your details to my 'recommendations' list that I send to all enquiries when I'm already booked.

Send an enquiry through my website if you'd like to chat further, or to book me in today. And welcome to the wedding game. You're gonna love it.
